## Great Grandmother Files \$4 Million Malpractice Lawsuit and Spearheads ProjectVoice™ to Champion Elderly Rights

(Toronto, ON - December 28, 2023) - At 93, Patricia Canie, a venerable great-grandmother, has initiated a \$4 million malpractice lawsuit, citing inferior medical care leading to an aphasic stroke, reminiscent of the affliction that compelled Bruce Willis to retire from acting.

Her son, Joseph Canie, a retired paralegal and dedicated caregiver, stands by her. The Canies plan to allocate any awarded funds to bolster ProjectVoice™, their brainchild dedicated to amplifying the voices of elderly hospital patients, encouraging them to articulate their care needs and concerns.

As alleged "Experiencing substandard care first-hand, we're committed to facilitating better healthcare experiences for others," asserts Joseph Canie. ProjectVoice™ aspires to mobilize resources and support from established foundations and charities to advocate for the deservedly high-quality care of the elderly.

Patricia Canie, once a vibrant "Spokesperson" for SkrAtch™, despite her impaired speech post-stroke, remains intellectually sharp. "I aim to continue impacting lives, especially for the hospital-bound elderly who struggle to be heard," she affirms.

Joseph, known for his legal acumen in precedent-setting published in the Ontario Rules of Civil Procedure and cited in other litigation, lawsuits against major lotteries, and as the co-inventor of the widely acclaimed SkrAtch™ game, which sold in 5 countries brings a wealth of experience to this cause.

To support Patricia Canie's legal battle or contribute to ProjectVoice™, please visit GiveSendGo, the ProjectVoice™ website, or Patricia's Crowdfunding page: [Patsy K™ Clothing](#).
